1. POSIPOL2011 preparation:

Gao-san reported the preparation status of POSIPOL 2011.

Please look at "20110623_Gao_POSIPOL2011.pdf".

Gao-san presented a draft of the program including Social activities.

Based on the Gao-san's draft, we made discussions.

(1) Scientific Program:

- (a) We discussed treatment of some talks which speaker is still TBD.

We decided to eliminate "Various high intensity positron sources (including conventional)(1st day)", because we have individual talks about conventional sources.

We still try to find the presenter of "Physics applications of high quality X-rays and gamma-rays (1st day)".
Gao-san try to find the presenter in China.
The talk will move from 1st day to the last day.

We decided to eliminate "Polarized beam

transport, control and acceleration(last day)", because Kovalenko's talk of the 1st day will cover similar area.

"High degree polarized positron generation from undulator radiation" can be eliminated, because Wei-san's talk of the 1st day will covert it. But we didn't make decision.

(b) Linac-based Compton talk.

It is better that someone from BNL will attend and give a talk of Linac-based Compton talk.

Omori will contact BNL people.

(c) Places of some talks:

We decided some changes of the places of talks.

Omori's talk will move from afternoon of the 1st day to morning of the 2nd day, because subject of the talk is essentially a target.

Kamitani-san's talk will move from the last day to the 1st day, because his talk is a sort of review talk.

(d) Speaker of the summary talk.

We made no decision.
I will make discussion by e-mails.

(2) Social events:

Gao-sa proposed to visit Beijing Capital Museum with guide. We agreed the proposal.

The date of the next phone meeting will be on July 21st(Thu) 2011; 17:00(JST)/10:00(CET).
