

Minutes of the 23rd "ILC-CLIC e+ studies" meeting

Date: October 13rd, 17:00(JST) 10:00(CET), 2011

A part of Attendees (whom Omori was able to hear the voices):
Louis(CERN), Eugene(NSC-KIPT), Peter(NSC-KIPT), Sabine(DESY),
Larisa Maiysheva(Hamburg U.), and Omori(KEK)

Agenda:

1. Report of AD&I phone meeting on October/12th : Omori

Presentation:

[http://www-jlc.kek.jp/~omori/ILC-CLIC-e+Studies/201101013/
20111013_Omori_ADireport.pdf](http://www-jlc.kek.jp/~omori/ILC-CLIC-e+Studies/201101013/20111013_Omori_ADireport.pdf)

1. Report of the AD&I phone meeting on October/12th:

Omori presented the report of the AD&I phone meeting
on October/12th:

Please look at "20111013_Omori_ADireport.pdf".

The meeting was concentrated on the preparation
of the Technical Baseline Review (TBR)(*) at
DESY.

(*) It is sometimes called "Baseline Technical
Review" (BTR).

The date of TBR meeting is 24-27/Oct/2011.

The meeting is for the baseline designs (not for
alternatives/buckups). At least most of time will
be allocated for the baselines.

The positron session will be on the 2nd day (25th/Oct).
But, the discussion on the "Central Region" on the
last day (27th/Oct) will be also related to the
e+ source design.

On the second day, all part of the baseline e+
source will be reviewed in the view points of
system parameters, design, layout, tech-systems,
CFS requirements, cost, AS specific issues, and
phys. & detector inputs.

The e+ source related discussions of the "Central

Region" on the last day (27th/Oct) will be on
"Overall E+/E- Timing", "Low Energy 10 Hz Running",
and "Auxiliary e+ Source".

About timing issue, Omori proposed (in AD&I meeting
on 12nd/October) to ask Kuriki-san to make short
presentation via WebEx, because he was once one of
members of the timing issue expert-team in 2006-2008.

Marc Ross-san agreed to allocate a slot for the
presentation.

--

The date of the next phone meeting will be on
November 17th(Thu) 2011; 17:00(JST)/9:00(CET).
