

Minutes of the 35th "ILC-CLIC e+ studies" meeting

Date: 14th Februray, 2013

23:00(Jpn) 15:00(Eur) 16:00(Ukr) 6:00(US-CA) 8:00(US-IL)

A part of Attendees (whom Omori was able to hear the voices):
Louis(CERN), Steffen(CERN), Song Jin(IHEP), Sabine(DESY),
Andriy(Hamburg), Wei(BNL), Wanming(BNL), Jeff(LLNL),
Alexander Mikhailichenko(Cornell), Takahashi(Hiroshima),
and Omori(KEK)

Agenda:

1. Fuzebox training : All
2. POSIPOL program committee: Wei-san.

1. Fuzebox training:

All attendees made the training to use Fuzebox for remote connection.

It seemed that all attendees succeeded to see a presentation, but for audio some of attendees failed to connect.

For audio, to use VoIP(*1) seems good.
The machine-made message from Fuzebox mentions something about "dial in method: Dial-in Number:", but please ignore the message and use VoIP.
When you use VoIP, it is better to connect your PC to the network via a cable. Wireless connection may give you insufficient audio quality.

*1) VoIP (Voice on IP): IP-based voice connection

2. POSIPOL program committee:

We discussed when we have a first meeting of the POSIPOL program committee. One possibility was IPAC at Shanghai. However it seemed that a remote meeting is more convenient for many people.

Wei-san will convene the remote meeting near future.
