

Dear All,

POSIPOL-2017 will be held on September, 18-21 during 3.5-4 days hosted by the Budker Institute of Nuclear Physics SB RAS, Novosibirsk.

POSIPOL-2017 Site: <https://indico.inp.nsk.su/event/9/>

Conference Topics:

Polarized positron sources

Physics applications of polarized positrons

High intensity positron sources

Matching device

Undulator

Targetry

Energy deposition densities in targets, thermal shocks

Channeling radiation and applications

Physics applications of X-rays and gamma rays

Best regards,

Pavel MARTYSHKIN

This slide is essentially copy of the MARTYSHKIN's mail. The red letters are modification and addition after the discussion.
